DRUGGING OF OUR CHILDREN

Time to End the Madness!

**UNRITALIN SOLUTION
MANIFESTO**

“All that is necessary for the forces of evil to triumph in the world is for enough good men to do nothing”

Edmund Burke

84% of children taking medications experience one or more of the following:

The Forces of Evil in numbers

1 in 6 ... The number of children suffering from neurobehavioral disorders

4.5 millions ... the number of children aged 3-17 yo diagnosed with ADHD in the United States alone

2.5 millions ... the number of children in the US taking powerful psychostimulant medications

1 in 64 ... the number of children diagnosed with autism in the UK

38% ... percentage of foster care children receiving one or more psychotropic drugs in Texas (41% of which received three or more psychotropic drug daily)

18% ... percentage of Medicaid-enrolled children with autism spectrum disorder age 0-2 years (!!)

400% ... the percentage increase in psychotropic drugs prescribed to children between 1995 and 2005 in the UK.

52% ... percentage of parents having put their children on drugs who said they would NOT do it again

Psychotropic drugs side-effects :

- Irritability
- Jaundice
- Loss of appetite
- Mood swings
- Nausea
- **Paranoia**
- Stunted growth
- Vomiting
- Weight loss

DRUGGED, WHILE THE TRUE CAUSES GO UNCORRECTED

Is this our noble profession's vision of the future?

From Dr. Gerry Clums's analysis of CCE's new 2012 Standard proposal:

Issue: The proposed Standards have removed the reference to chiropractic being "without the use of drugs and surgery"

The next step?

Time for pitchforks and torches has come!

556

The number of weekly visits a chiropractor would see if he or she was part of a group of a 2020 chiropractors taking care only once per month of all the children diagnosed with ADHD in the United States alone.

The Unritalin Solution 2030 Vision

The year when ...

1'764'000 children

... have a chiropractor

By 2030, there will be a projected 58.8 million children in the United States. At today's statistics, one in six – or 9.8 millions – will likely be diagnosed with some form of neuro-developmental disorders.

In order to truly make a difference, a movement needs to penetrate between 15-18% of a “market”. This is why our vision is to serve the lives of at least 1'764'000 children... just to get started

The Unritalin Solution Intermediate Strategic Plan

2020

ADHD Wellness Expert Chiropractors

FOR

the year

2020

Our mission, by 2020, is to train, coach and mentor at least 2020 chiropractors to become ADHD Wellness Expert and Brain First Maven in their communities, and to position chiropractic as the only viable option for children suffering from neurobehavioral disorders.

This community of like-minded individuals will drive a grass-root movement to reposition chiropractic as it was meant to be: vitalistic and neurologically-based, as well as provide tremendous values to the ever-growing community of children with special needs.

Together, we will make a difference!

OUR VISION IN ACTION

Strategy to Reach 1'764'000 children

**UNRITALIN
SOLUTION**
